

# Coyote Control Workshop

**Thursday, February 18**  
**1:30pm-5:00pm**

Coyotes can have a significant impact on wildlife and domestic animals. However, because of the intelligence of the coyote, controlling them can be frustrating. This workshop will provide basic information on coyote biology as well as hands-on demonstrations for coyote trapping. Additionally, participants will learn how to trap for coyotes within the law and SCDNR regulations.

**Who Should Attend:** Landowners and natural resource managers that have an overabundance of coyotes on their properties would benefit from this program.

## Workshop Location

Santee Convention Center  
1737 Bass Drive  
Santee, SC 29142

## Cost

\$15 per person

## Registration

ONLINE:

[http://www.clemson.edu/extension/natural\\_resources/continuing\\_education/documents/coyotes\\_santee.html](http://www.clemson.edu/extension/natural_resources/continuing_education/documents/coyotes_santee.html)
